NATURE'S LIGHTS IN THE SKY – BY DAY

Learning Focus : - Looking at the Sun, and the Shadows

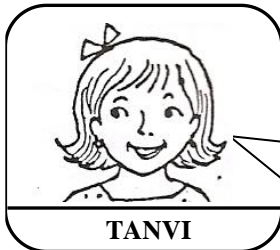

- I. ♦ Teacher took her class out to experience the light and heat of the SUN.
 ♦ In the incomplete conversation below, find out what some of the children discovered after they stood in the sunlight for some time. The words in the 'box' and the Picture-clues will help you fill in the 'blanks' to complete the conversation. You may use some words more than once.

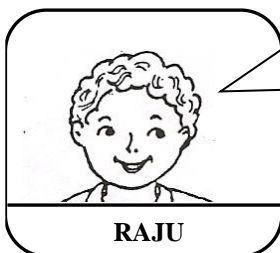

star * plants * moon * human beings
 earth * eyes * gases * sun * animals

Look how big and bright the  is.

Yes, and hot, too! Please don't look at the sun, or your  will hurt. It is like a big ball of burning .

Ma'am, is it really true that the sun is the  closest to us? And is that why it seems hotter, brighter and bigger than the other stars far away?

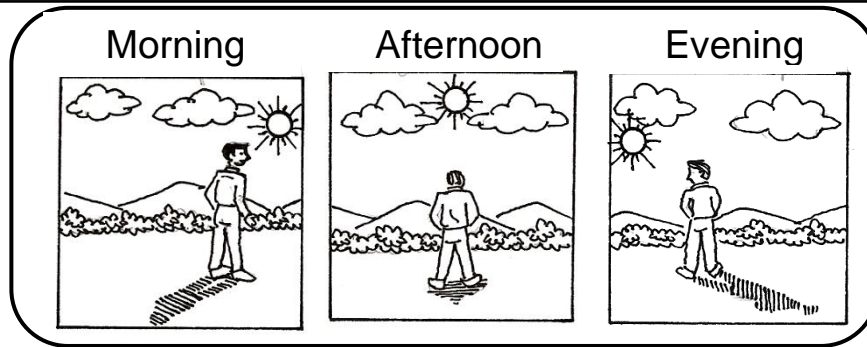

Yes Raju, and we cannot live without the sun. All living things, , , (and that means  too) need the sun with its light, heat and energy, to grow and to be healthy. Even the  gets its light from the sun.

So the  is really a good friend! "We need to be thankful for the gift of the sun. For without it, there

Nature's Lights In The Sky – By Day

II. ♦ Choose the right word from the 'box' at the side and fill in the blanks.

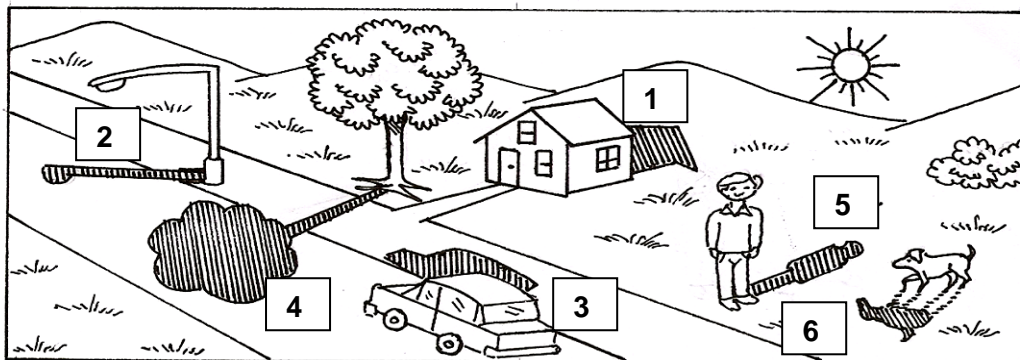

long
length
short
